9

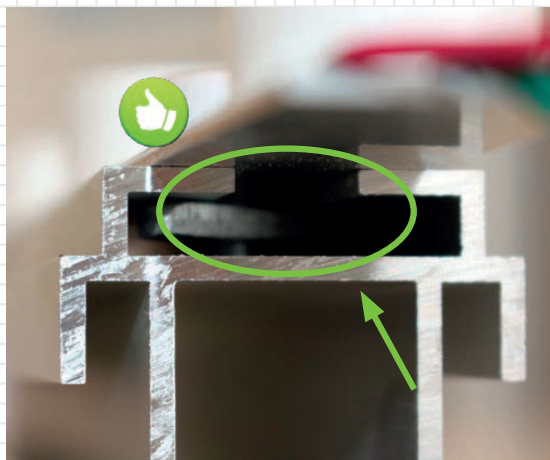

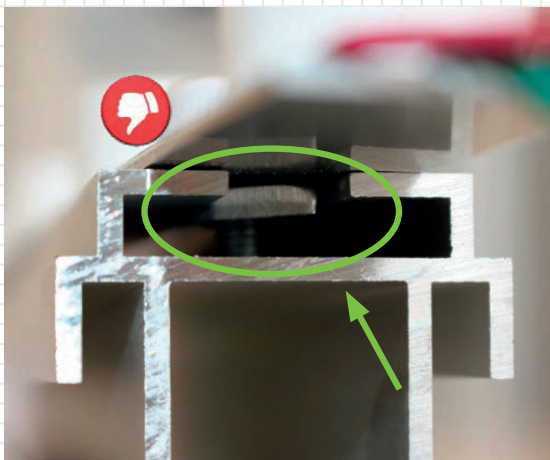

7. 270 10 01 POWERLED POWERSPLITTER
8. 250 11 03 A EU POWER CABLE [3M]
9. 250 11 04 A UK POWER CABLE [3M]

# How to...

## Mount a sideLED lightbox

Technical info for mounting a sideLED lightbox. Step by step:

1. Mount the LED modules in the slot of your profile, using the manual screws and the parallelogram shaped rear plates.
2. Divide the modules evenly over the length of your profile. Count 1 module per  $\pm 0,5$  m.
3. Make sure the back plate hooks behind the flange of your profile so your LEDs are fixed tightly. For this you must first unscrew the screw a little before mounting the LED module.

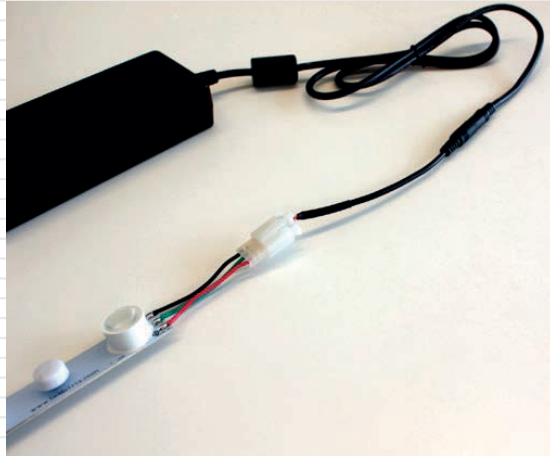

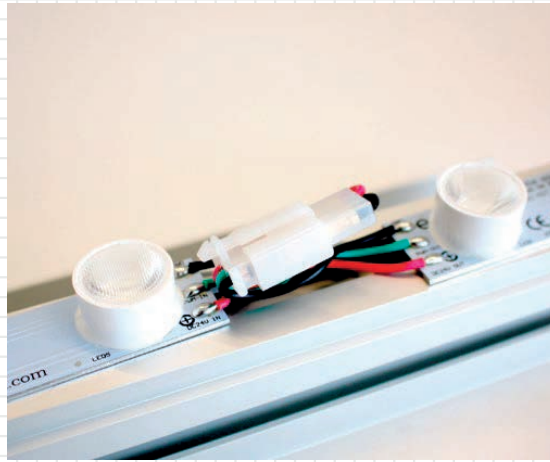

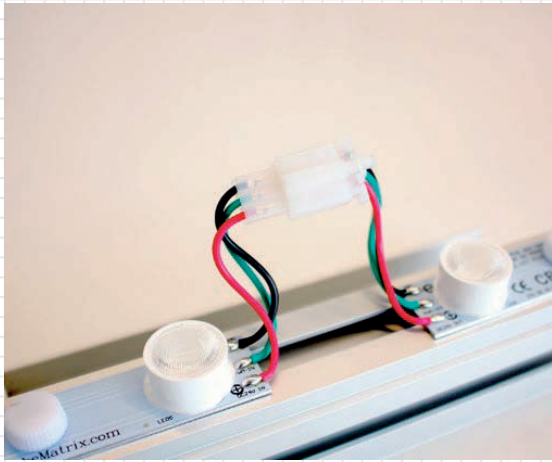

# How to...

## Mount a sideLED lightbox

Technical info for mounting a sideLED lightbox. Step by step:

1. Connect the LED modules with each other (max. 8 modules).
2. Fold the connections compactly, so they can not be seen in the light beam.
3. Cable "270 10 05". From LED circuit to transformer.
4. Connection from LED circuit to transformer.
